B. Landmarks Committee – Anthony Cohn and David Helpern, Co-Chairs

LM-1: Item 1 – Part A (The Building)

LM-2: Item 1 – Part B (The Landscape)

LM-3: Item 2

Item 1: **1000 Fifth Avenue: Metropolitan Museum of Art (Individual Landmark)** – *Beyer Blinder Belle and Frida Escobedo* – A Beaux-Arts style building designed by numerous architects, chiefly, Calvert Vaux and Jacob Wrey Mould, who designed the initial Ruskinian Gothic structure of the MET, and constructed in the 1880s, with additions in the 2000s. Application is for demolition and for the new building for the Modern and Contemporary collection, the “Tang Wing,” at the southwest corner of the Metropolitan Museum of Art.

THIS APPLICATION IS DIVIDED INTO TWO PARTS: Part A — The building, Part B — The landscape.

Part A — The Building

WHEREAS the Metropolitan Museum of Art requires increased and improved gallery space for the display of modern and contemporary art; and

WHEREAS the proposed location for the new galleries is the southwest corner of the museum building; and

WHEREAS the interior of the southwest wing has inadequate and inappropriate space for the display of modern and contemporary art; and

WHEREAS the envelope of the southwest corner has deteriorated and must be replaced; and

WHEREAS the current southwest corner galleries are known as the Lila Acheson Wallace Wing (LAW); and

WHEREAS the Lila Acheson Wallace Wing will be demolished and reconstructed as the “Tang Wing” for modern and contemporary art; and

WHEREAS the location is consistent with the Roche-Dinkeloo Master Plan approved by the City in 1971 and completed in 1991; and

WHEREAS the new Tang Wing will use the same footprint as the current LAW Wing; and

WHEREAS the new Tang Wing will be no taller than the adjacent Kravis Wing; and

WHEREAS the new wing will be fully accessible; and

WHEREAS the new wing will significantly reduce the use of energy; and

WHEREAS the Met is a collection of architectural styles expressive of their times; and

WHEREAS the Met can be seen as a collection of 21 buildings which comprise a campus like a medieval town, with narrow streets and open plazas; and

WHEREAS the evolution of the Met has created historic layers that set a context for the new wing; and

WHEREAS the massing of the new wing reflects the improved circulation and increased gallery space within the wing; and

WHEREAS the proportioning of the new wing marries it to the overall massing of the Met; and

WHEREAS the setbacks reduce the perception from the Park of the volumes required for the galleries; and

WHEREAS the use of Indiana limestone marries the wing to the primary exterior material of the Met; and

WHEREAS the use of limestone anchors the new wing at the corner; and

WHEREAS the new wing extends the roof and cornice alignments of the museum; and

WHEREAS the design of the facades continues the Roche-Dinkeloo planning concept of stone modulated with glass volumes; and

WHEREAS the belt sawn and split face stone textures of the new Tang Wing complement but vary from the sandblasted stone textures of the museum facades; and

WHEREAS the stone in the new Tang Wing is made up of custom shaped bricks that can be made into solid rain screens or Celosia (porous) screens set in front of glazing; and

WHEREAS the proportions of the stone bricks become smaller level by level, enhancing the perspective views; and

WHEREAS the new Tang Wing has five levels with terraces on Levels 4 and 5 with views of the City; and

WHEREAS the Celosia screens filter natural light during the day, which is desired for the artwork; and

WHEREAS the daylight facilitates wayfinding; and

WHEREAS the Celosia screens emit a soft glow of light at night; and

WHEREAS the Tang Wing maintains the scale of the overall museum building; and

WHEREAS the Tang Wing balances the needs of the Met with an addition that in its materials and proportions completes the massing of the Met with a unique design; and

WHEREAS the Tang Wing extends the Met's tradition of expanding with a design that is expressive of its time;

WHEREAS the Tang Wing is contextual and appropriate for this individual landmark;

THEREFORE, BE IT RESOLVED that Part A of this application is **APPROVED AS PRESENTED**.

Community Board 8 Manhattan approved Part A of this resolution by a vote of 34 in favor, 1 opposed, 0 abstentions, and 0 not voting for cause.

Part B – The Landscape

WHEREAS the proposed landscape has three goals; and

WHEREAS the first goal will create an accessible path from Fifth Avenue to the Great Lawn; and

WHEREAS the second goal will establish a diverse planting palette that will promote biodiversity and be appropriate to the scenic landmark; and

WHEREAS the third goal will improve the Park and Museum interface through planting, grading, screening, and views; and

WHEREAS the project site area has a lawn with a relatively small number of trees that will be transformed by the three goals; and

WHEREAS there are planting precedents in Central Park that will inform the landscape design; and

WHEREAS the proposed path around the Tang Wing will be graded to eliminate the non-accessible slope; and

WHEREAS the proposed landscaping will remove 13 trees and plant 40 to 50 new trees; and

WHEREAS the wood from the removed trees will be used locally; and

WHEREAS the materials palette will include asphalt paving with sloping granite block curbs, Central Park settee benches, pipe rail fences, and reinforced drivable grass; and

WHEREAS the new planting will create a surround of the Tang Wing with trees and plants native to Central Park; and

WHEREAS the proposed landscape will improve the scenic views from the public way; and

WHEREAS the proposed landscape is contextual and appropriate for the individual landmark;

THEREFORE, BE IT RESOLVED that Part B of this application is **APPROVED AS PRESENTED**.

Community Board 8 Manhattan approved Part B of this resolution by a vote of 35 in favor, 1 opposed, 0 abstentions, and 0 not voting for cause.

Item 2: **6 East 74th Street (Upper East Side Historic District)** – *Thomas Juul-Hansen* – An Eclectic (originally Italianate) style building designed by an unknown architect and constructed in 1871, with alterations in 1898, 1928, and 1952. Application is for alterations to the existing, non-historic rear yard additions, the expansion of an existing penthouse addition 4'8" at the rear, and new elevator/stair bulkheads and mechanical equipment at the roof.

WHEREAS 6 East 74th Street is an eclectic (originally Italianate) house designed by an unknown architect and constructed in 1871, with alterations in 1898, 1928, and 1952; and

WHEREAS there have been generations of change over the years; the proposed work at 6 East 74th Street fits into the building's history of change; and

WHEREAS all proposed work at 6 East 74th Street will take place within the existing building; the work at the roof will be minimally visible; and

WHEREAS at the front or north-facing elevation, the applicant proposes a new stair bulkhead and a new louvered metal screen with a gray finish: all new wood windows will be installed in the existing openings; the new stair bulkhead is not visible at the front elevation; and

WHEREAS at the rear or south-facing elevation, the applicant proposes

- a) A new stair bulkhead extending out at 4' at the top of the building to be clad in copper; the copper will patinate over time;
- b) A new elevator bulkhead extending out at 4' at the top of the building to be clad in copper; the copper will patinate over time;
- c) New plaster coping to be painted to match the new extension;
- d) At the 5th floor, the rear wall will be bumped out by 5'; a new framed wall finished in stucco to match the existing façade will enclose the extension; the new plane of the bumped out 5th floor will be minimally visible;
- e) The 4th floor windows will remain unchanged; the openings at the 2nd & 3rd floors will be expanded and slightly relocated;
- f) A new black painted metal railing at the existing 3rd floor terrace;
- g) New black aluminum double hung windows in existing openings;
- h) New black aluminum double-hung windows in modified openings;
- i) A new black painted metal railing at the new 2nd floor terrace;
- j) A new black aluminum and glass door to open to the new 2nd floor terrace;
- k) New framed wall to replace the existing greenhouse — now above the 1st floor on an existing extension — will be finished in stucco to match existing facade; the roof of the now enclosed space will become a new terrace at the 2nd floor; and

WHEREAS the overall height of 6 East 74th Street does not change; both the elevator bulkhead and the stair bulkhead are 4'5" over the proposed new cornice; and

WHEREAS the proposed alterations are small and restrained and scarcely visible;

THEREFORE, BE IT RESOLVED that this application is **APPROVED AS PRESENTED**.

Community Board 8 Manhattan approved this resolution by a vote of 35 in favor, 2 opposed, 0 abstentions, and 0 not voting for cause.

C. Parks and Waterfront Committee – Felice Farber and Judy Schneider, Co-Chairs

Item 2: **Request to NYCDOT for Additional Parking Spaces for NYPD’s 19th Precinct**

WHEREAS; NYPD’s 19th Precinct is requesting NYCDOT conduct an evaluation of parking near their headquarters at 153 East 67th Street to identify potential additional dedicated on-street spaces; and

WHEREAS; NYPD’s 19th Precinct currently has 14 spaces assigned for their fleet of 47 official vehicles; and

WHEREAS; 5 NYPD spaces located on East 68th Street between 3rd Avenue and Lexington Avenue were recently removed as part of the project to renovate the 68th Street NYC Subway Station; and

WHEREAS; the 19th Precinct is now struggling to legally park their vehicles in close proximity to their headquarters with only 14 dedicated parking spaces for 47 official vehicles; and

WHEREAS; NYCDOT has previously denied a request from the 19th Precinct to replace their recently removed dedicated spaces due to limited on-street inventory; and

WHEREAS; the 19th Precinct’s operations would benefit from the maximum number of additional parking spaces that could be allotted to them; and

WHEREAS; the community strongly supports the work of the 19th Precinct and their need to safely and legally park their vehicles without interfering with traffic operations;

THEREFORE, BE IT RESOLVED, that Community Board 8 Manhattan requests that NYCDOT perform a study of the area in the immediate proximity of NYPD’s 19th Precinct at 153 East 67th Street for availability of spaces for official departmental vehicles, with a goal of identifying as many on-street spaces that they can find for their use.

Community Board 8 Manhattan approved this resolution by a vote of 34 in favor, 4 opposed, 0 abstentions, and 0 not voting for cause.

Item 3: **Revocable Consent Approval for 134 East 74th Street**

A motion to approve this application failed by a vote of 7 in favor, 30 opposed, 0 abstentions, and 0 not voting for cause.

A substitute motion to disapprove this application was introduced.

WHEREAS; 134 East 74th Street is seeking a revocable consent to construct, maintain and use a fenced-in area; and

WHEREAS; there is an existing fenced-in area that extends 3'1" beyond the property line along a portion of the newly combined property; and

WHEREAS; the fenced-in area is needed to separate the sidewalk from a proposed sunken stairwell that would allow it to be level with the existing building upon being combined; and

WHEREAS; the proposal for the new entranceway had previously received strong support from Community Board 8 in a May 2023 Landmarks resolution; and

WHEREAS; the owners are seeking to extend the fenced in area to continue across the extent of the entire combined property, which would extend 3'1" beyond the property line throughout its entirety; and

WHEREAS; the proposed fenced-in area will not provide any public benefits and take away valuable sidewalk space;

THEREFORE, BE IT RESOLVED, that Community Board 8 Manhattan **DISAPPROVES**, as presented, the revocable consent request for 134 East 74th Street to construct, maintain and use a fenced-in area, including a planted area and steps.

Community Board 8 Manhattan approved this resolution by a vote of 30 in favor, 7 opposed, 0 abstentions, and 0 not voting for cause.

VR-1: Item 3

Item 3: **Intro No. 1164**

THEREFORE, BE IT RESOLVED, that Community Board 8 Manhattan supports Intro #1164 as presented.

Community Board 8 Manhattan approved this resolution by a vote of 21 in favor, 12 opposed, 2 abstentions, and 0 not voting for cause.

9. **Old Business** – No items of Old Business were discussed.

10. **New Business** – A brief discussion of NYS S445/A3342, which would lower the in-person quorum required for meetings, took place, but the board decided no action should be taken as the venue needed to close.

The meeting was adjourned at 9:03 PM.
